

PLACES BLAME FOR IDLENESS ON CONGRESS

Unemployment Conference
Attributes Condition to
Slump in Road Building

TO CHECK PANICS

"Early Stage of Boom" Declared by
Conference To Be Proper Time To
Act

Washington, Oct. 14.—Congress came in for a birching in the final session of the Unemployment Conference yesterday when that body by unanimous vote and without debate adopted a declaration placing upon the legislative branch of the Government primary responsibility for the slump in road building and the consequent idleness of many thousands of men.

Of equal, if not greater importance, is the adoption of a statement on the causes of the recurring cycle of business depression, in which it is asserted that the severity and duration of these periods can be definitely checked if not averted and "acute unemployment abolished" by the adoption of proper methods during boom times.

The adoption of these declarations, the total absence of "fireworks" over the reports of committees divided on controversial matters and a bit of a love feast, in which members of the labor group and representatives of the manufacturers joined in praising the work of Herbert Hoover, preceded adjournment until such time as the standing committee may see fit to call the conference together again.

Pending such a call committees will continue on emergency measures while others will work on methods for avoiding unemployment crises in the future. With these committees and under the immediate direction of Mr. Hoover, Col. Arthur Woods, former Police Commissioner of New York, will have the task of making effective the emergency recommendations of the conference.

RAYMOND ACTON BURIED

The funeral of G. Raymond Acton, who died Wednesday in Washington took place at 11 o'clock this morning from the residence of his sister, Mrs. Isaac Gregg, 219 South Alfred street. Services were conducted by Rev. Percy F. Hall, rector of St. Paul's Episcopal Church and burial was in St. Paul's cemetery. Pallbearers were Lawrence Perry, George H. Robinson, Dr. Frank R. Cochran, this city, and Frank J. Davidson, Charles Brooks and Maury Middleton, Washington.

WIFE'S COOKING BAD

Charge Made By Colored Man Arraigned For Non-Support

"She can't cook to suit me," said a colored man giving the name of William Washington when he was arraigned today in the police court on complaint of his wife who charged he failed to support her. The husband then made another charge against his spouse and the mother-in-law of the wife also had something to say uncomplimentary about the wife.

The charges and counter charges came thick and fast and Justice Snow decided to allow time for another round and announced to all parties to come forward tomorrow morning with witnesses to corroborate their charges when the final round will take place.

The city republican committee held a meeting last night when a letter was read from state headquarters announcing that Colonel Henry W. Anderson would speak in this city November 3. Colonel Anderson is the republican nominee for governor.

BAKER FINED \$50

Washington Man Selling Bread Here Without a License

A Washingtonian giving the name of Louis J. Banbuss, in charge of a wagon delivering bread in this city, today was fined \$50 in the police court on a charge of doing business without the required license.

The man was arrested by Police man Magner who testified that the baker had been here for some time past. The accused said he recently bought the business. He was also directed to take out a license if he proposed to continue to do business here.

COOKING SCHOOL

Ladies' Auxiliary to Y. M. C. A. Give Instruction to Girls

Thirty eight girls took their first lesson in cooking yesterday at the cooking school opened by the Ladies' Auxiliary of the Y. M. C. A. at the Chamber of Commerce. Judging by the large number who appeared for the first lesson and the enthusiasm displayed, more classes will soon have to be organized to meet the needs of the girls who are more and more realizing the value of this special kind of training. At present there are two classes working under the instruction of Mrs. Grace Bernard, one at 3.30 primarily for Girl Scouts and one at 4.30 for others who desire to attend. The only charge is a small one of ten cents per lesson to help cover the cost of materials used.

The kitchen of the Chamber of Commerce, which has been loaned for the use of the Auxiliary, has been quite transformed by the building of cupboards to care for the equipment which has recently been purchased. The girls seemed very proud yesterday of their aluminum utensils, which were immediately put into service for the making of coffee and the proper cooking of cereals—the two subjects taught in the first lesson. The eagerness displayed by the girls to learn the proper way of doing these apparently simple tasks, in order to make themselves more useful in their homes, emphasizes the need for this special kind of training in our public school system in Alexandria. For some years Arlington County has had domestic science and art as a part of the school curriculum. Surely Alexandria children are entitled to the same advantages. Until, however, these subjects are placed in the local schools it will be the aim of the auxiliary to provide such training for as many as it is possible to care for.

The first lesson in the Home Nursing course offered by the Ladies' Auxiliary of the Y. M. C. A. will be given at the Chamber of Commerce tonight at 7.30. Any person who is interested is invited to join this class, there being no charge for tuition. Miss Bertha Bristow, Alexandria's Red Cross nurse will be the instructor for the course.

O-D-BOAT CLUB MAKES PLANS TO ENTERTAIN

Committee Is Reappointed To Prepare For Winter Festivities

VOTE OF THANKS

Appreciative of Services Given For "Ship Ahoy" Election, A. J. Rhodes Honorary Life Member of Club

The Old Dominion Boat Club at its meeting held last night decided to continue the entertainments similar to those given last winter and the following committee on entertainment was reappointed: George D. Hopkins, F. M. Hamilton, C. J. Mueller, Harry L. Wise, Sr., Douglas, J. T. Preston, Jr., and H. V. Quigley.

A vote of thanks was tendered all who participated or aided in making the recent play entitled, "Ship Ahoy" such a big success.

The club elected A. J. Rhodes a honorary life member in recognition of his services to the club at all times, in aiding them in their entertainments.

A vote of thanks also was tendered the ladies in charge of the dances given recently. Considerable other routine business also was disposed of.

This club is one of the most active in the city and has big plans ahead for its spring and summer work.

Mrs. J. W. Duty and little daughter have left the Alexandria Hospital for their home in North Royal street.

Mr. George Chalk has returned to his home in Lorton after recovering from an operation at the Alexandria Hospital.

WASHINGTON DAY BY DAY

(From Our Special Correspondent)

Washington, Oct. 14.—Postmaster General Will H. Hays has inaugurated many innovations in the administration of his Department since he has been head of this government branch. The latest was appeared in the daily Postal Bulletin yesterday. In an effort to drive home some facts about the proper addressing of mail, early mailing and preparing for the Christmas rush, there will appear in the bulletin from day to day cartoons, drawn by prominent newspaper artists intended to impress upon the people of the country the necessity for greater care in the preparation of their mail matter. The first cartoon represents a big, fat employer "bailing" out his stenographer for addressing half a hundred envelopes, the letters being so dim that he says he can hardly read them "even in this north light." The stenographer remonstrates and says the postal clerks are paid for deciphering the addresses.

"Put a new ribbon on the typewriter and do them right. That's what you're paid for," demands the employer.

What do Senators do when they are not debating weighty public questions or answering roll calls? That question is often propounded by the curious and inquisitive.

Senator Walsh, of Montana, answers the query so far as he is concerned. He says he likes to attend the theatre and is not averse to witnessing shows on Sunday night. And there are many other Senators who do the self same thing. Perhaps a dozen Senators are devotees of the golf links and get their recreation in this way.

Anna Graldine Hayden, secretary to Representative Zihlman, of Maryland, sets the pace and fashion for the younger female secretaries. Every now and then Miss Hayden, who is pretty and vivacious, creates a mild sensation by taking up some new fangled fad or fancy.

Her latest stunt is to wear her hair in an ultra-fashionable manner. After having been hidden for sometime by "cootie cages" as she puts it, half of her ears are exposed and the lobes are highly rouged. So decided was the change in her appearance that some of her friends were inclined to think she had lost her sweetheart.

This week, Miss Hayden shocked the "blue law" advocates by appearing in hand-painted puttees. The movie man got busy and as a result of his activities, she got famous overnight.

The United States Employment Bureau in Washington has received but few applications from women seeking domestic positions since it has been in existence.

"Of the hundreds who have applied for positions," said the Director today, "none of them want to do housework. They are all going into politics or taking up some fad or other. Sweep ing and dusting are things of the past. The women of today are taking up psycho-analysis—interior decoration, designing, opening up beauty parlors, etc.—anything, in fact, but housework."

"There is no real home life these days. Even mothers must keep up with daughters, dress like daughters and jazz around like daughters. They are too busy with their social engagements to make their homes homey."

Soft drinks, prayer books and hymnals in the saloons of American ships will not fill the passenger lists, R. F. Blaine of the Seattle Chamber of Commerce told the Shipping Board at a recent conference on trade routes to the Orient.

"I am not a drinking man myself," said Mr. Blaine, "but I would not go on a long trip on the high seas on a 'dry' vessel, and there are vast numbers of other Americans who feel the same way, so something must be done."

Despite this pessimistic attitude assumed by Mr. Blaine regarding the future of America's shipping, there does not seem to be any prospect that Congress or the Shipping Board will pay any attention to his note of warning.

To a mercenary man it would seem more profitable to be a guide at the Capitol than a Senator, since hundreds if not thousands of tourists go there daily and the guides are authorized by Congress to charge each pilgrim 25 cents for reciting his song about the different paintings, the statuary, the Senators Representatives and the two chambers of Congress.

It is rather offensive and repulsive to many of the out-of-town guests many from distant points, to be lined up in rows and then "shaken down" for 25 cents as the price of admission. Of course, one can roam about the corridor like a lost soul without paying anything, but then he is constantly being "barked at" by some door-keeper.

ISAAC GREGG

HOME BREWING UNDER BAN OF DRY OFFICERS

Commissioner Haynes Orders Seizure of Malt, Hops and Bottling Outfits

RAID IN WASHINGTON

Section 18 of Volstead Dry Law Claimed As Authority For Latest Raids Against Home Industry

Washington, Oct. 14.—Prohibition Commissioner Roy A. Haynes today began a country-wide drive against "home brew" and the sellers of malt, hops, bottling outfits and other materials and devices used in the making of beer. At the direction of the Commissioner, whose action in Washington doubtless will be followed by similar action in other cities, prohibition agents raided several distributors of beer-making appliances.

Commissioner Haynes has instructed state directors and prohibition agents throughout the country to get busy and raid all establishments where malt, hops and beer making utensils are sold. He contends that the Volstead act gives authority for the raids and confiscations. Materials and appliances valued at approximately \$25,000, were seized in Washington yesterday afternoon.

John F. Kramer, the predecessor of Commissioner Haynes, did not disturb the sellers of malt and hops. He took the stand that they could be molested, as there is nothing intoxicating in the materials themselves and they produce near-beer unless something is added to give the stuff a "kick." Commissioner Haynes, however, holds the Volstead enforcement force throughout the country to seize all beer making materials and utensils.

It was said at prohibition headquarters today that the action of Commissioner Haynes is based on Section 18 of the Prohibition act, which says:

"It shall be unlawful to advertise, manufacture, sell or possess, utensil, contrivance, machine, preparation, compound, tablet, substance, formula, direction or recipe advertised, designed or intended for use in the unlawful manufacture of intoxicating liquor." Another section of the act stipulates that "it shall be unlawful to have or possess any liquor or property designed for the manufacture of liquor."

An official statement issued by Commissioner Haynes after the Washington raids quoted the above sections of the law and added:

"State directors and agents throughout the country will be directed to make similar raids, not only of concerns dealing in articles for the manufacture of home brewed liquor, but also of concerns manufacturing and selling appliances out of which stills may be constructed."

The Haynes statement further says the Washington raids established a "precedent" and that the prohibition agents had seized "a vast supply of malt, hops, fruit sugars and bottling appliances." Commissioner Haynes warns newspapers not to publish advertisements of firms that offer such materials and appliances for sale, as their advertising is forbidden.

The raids came as surprise to Washington dealers in malt and hops who have made no secret here of their dealings, and their places of business for some months have exhibited signs that the goods might be obtained inside. The fact that such ingredients were being sold in this and other cities has been well known to prohibition agents.

Plea For Warm Clothing

Winter is approaching, and with it comes the plea from the still persecuted and suffering people of the Near East for clothing to protect them from the cold.

The Near East Relief Committee of Alexandria makes an appeal to the town for warm clothing of any description, new or old, for men, women and children.

Such donations may be sent any day this week between the hours of 9 and 5, to the second floor of 612 King street, where they will be gratefully received.

Bible Thought for Today

PRAYER:—But thou, when thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly. For your Father knoweth what things ye have need of, before ye ask him.—Matt. 6: 6, 8.

STATE NEWS

E. Lee Trinkle, the primary campaigner and E. Lee Trinkle, the campaigner against the Republican party are two separate and distinct entities. Trinkle, the primary campaigner, campaigned vigorously to win the nomination of the party, but his campaign was hampered to some extent by the fact that he was speaking on issues concerning the Democratic party only and was engaged in a contest against another Democrat. Trinkle, the campaigner against the Republican party, spoke last night at the Armory and unloosed all the thunderbolts of denunciation which are at his command in the direction of the party which is attempting to overthrow the Democrats in Virginia.

Norfolk—Following the meeting of the National Council at the Southland Hotel this morning, and a series of sectional conferences during the day in the convention hall at the Ghent Club, the thirty-sixth annual convention of the Brotherhood of St. Andrew was officially welcomed to the city last night. Sessions of the main body of the convention will continue through the remainder of the week at the Ghent Club, while the boys' convention will be in session at the parish house of Christ Church.

Lynchburg—Arrangements have been completed by the Y. M. C. A. here for the entertainment of about 200 delegates who are to attend the conference of older high school boys here Friday and Saturday, the meeting lasting through Sunday. Practically every association in the state will be represented. The conferences are to be held in Westminster Presbyterian church, a downtown church, and the churches of the city are to assist in entertaining the visitors.

Lynchburg—The A. C. Barrow Overall Company, which recently took over the plant of the Jobbers' Suspender Company, has started work on an enlargement of the plant, which will be four stories with a depth of 120 feet and about twenty-five feet wide. This will double the plant. The company is overrunning orders and has had to recall salesmen.

Lynchburg—A negro physician, Dr. T. J. Fawcett, will answer a charge in the police court here of failing to report a case of scarlet fever in a negro home. Two cases of the malady among children in white homes, widely separated in the city, are believed to have been carried from the negro case by means of domestic laundry.

Danville—Mrs. Ola B. Fries yesterday qualified as deputy collector of internal revenue to succeed William H. Jones. Her name was sent to Washington for confirmation by John C. Noel, collector of internal revenue for Virginia. She is the first woman federal officer here and was appointed because of her familiarity with taxes.

Danville—Public concern is manifesting itself in the continued spread of typhoid fever from some cause which so far has completely baffled the local health authorities. There are 55 cases in various stages, many patients being safely through the crisis while others are in the stage of delirium and in serious condition. About half of the cases are children. Doctors declare that the malady is less virulent than in previous years and there have been few fatalities.

Winchester—Residences costing approximately \$1,500,000 either have been erected or are in course of construction in Winchester, according to statements given out yesterday by financiers and contractors.

Richmond—Will the State prohibition department be in existence after Aug. 31 of next year? If the department is to be continued will Harry B. Smith or J. Sidney Peters be commissioner? These questions are agitating the minds of Virginia politicians. While no formal announcement have been made, it is known that Commissioner Smith is a candidate to succeed himself and that the Rev. J. Sidney Peters is perfectly willing to oust Mr. Smith from the position from which Mr. Smith ousted him.

It may be already been thrown out and the fight for the place is on. But it may be a fight for the empty honor for the law says that the department shall come to an end on August 31.

BLAINE ELKINS WEDS

Mrs. Lucy D. Evans Bride—Ceremony in Baltimore Yesterday

Blaine Elkins, son of the late Senator Stephen B. Elkins, of West Virginia, was married in Baltimore yesterday afternoon at 3:30 o'clock to Mrs. Lucy Douglas Evans, of Alexandria, Va. The marriage, performed quietly, came as a surprise to Washington society.

A marriage license for Mr. Elkins and Mrs. Evans was issued in Baltimore. The couple left for a three weeks' motor trip through the North and South.

Mrs. Elkins, who is a daughter of Mr. and Mrs. J. S. Douglas, of Alexandria, was the widow of Percy Evans, a noted Virginia horse man. She herself is much interested in horses. It was through this interest that she met Mr. Elkins' sister, Mrs. William F. R. Hitt, nee Katherine Elkins, with whom she spent most of last winter in California. Mrs. Hitt lives much of the time in Middleburg, Va. The friendship between the two brought Mrs. Evans and Mr. Elkins together, beginning their romance.

Only the immediate members of the two families witnessed the ceremony.

REHEARSE PAGEANT

Christ Church Will Present "The Mission of the Church."

Last night the second rehearsal of the pageant was held entitled, "The Mission of the Church." The truth is being symbolized in the influence and extension of the gospel and its being sent into the world to transform the lives of the nations and is a direct challenge to the statement that Christianity has failed, the eternal verities can never fail. The failure lies in proportion as the principles are disregarded. The love of power from the days of Eve has been one of the dominant desires of both men and women, and only as they come under the influence of the cross will their lives be transformed. Hence the central thought of the pageant will be the cross, occupying the center of the platform, as a distinct and emphatic symbolism of the gospel.

The platform will be placed in the yard on the south side of the church, the procession will form in the Parish Hall and led by the angels will cross the yard to the platform and take their positions at the foot of the cross, then come the three clergymen, who take the three speaking parts, the three voices as they are called, represent three elements or aspects of religious life. The voice of Divine Mediation (Mr. Hall) the Word of God (Mr. Carpenter); and The Appeal of the Human Spirit (Dr. Morrell). The clergy will be followed by the three choirs ranged in a semi-circle on either side of the platform. Then will come two distinct groups of people. St. Paul's will represent the Domestic Mission Field and Grace Church will represent the Foreign Mission Field; Christ Church will have charge of the angels and the staging of the pageant. Electric lights will stream from the cross and from time to time colored lights will be thrown on the platform.

The service consists of brief portions of the Bible, a few prayers, a number of hymns, a short historic Memorial touching (1) the Board of Missions; (2) Diocesan Missionary Work; (3) Foreign Missions; (4) Domestic Missions, represented by these various groups of people appropriate costumes, shows the kind of people this century of mission work has touched.

Indians, immigrants, Mexicans, Mountaineers, Eskimos, Chinese, Japanese, Spaniards, Turks, Soldiers, Sailors, Rich and Poor, High and Low all come under the influence of The Cross and all will join in the national "All Hail the Power of Jesus Name." As the clergy, angels choir, etc., return to the Parish Hall to be dismissed.

This religious service is open to the public and everyone cordially invited to attend, no collection will be taken and all will be welcomed.

If clear, the pageant will be held on Tuesday night, October 18th. If the weather does not permit it will be postponed until Friday night, October 21st, and due notice will be given in this paper if a change is necessary.

DEAD LINE FOR DOG LICENSES IS TUESDAY

Beginning Wednesday Fine of \$5 For All Unlicensed Canines

Work of Rounding Up Delinquent Dog Owners Will Be Continued Till All Are Gathered In

Persons owning dogs who have not yet taken out the state license will be given till Tuesday afternoon in which to take out the required license. Announcement to this effect today was made by Police Justice W. S. Snow.

Beginning next Wednesday morning all persons who have failed to take out the required license will be haled in the police court and a fine of \$5 imposed in every case and in addition they will have to pay a fee of \$1 to the game warden and take out the necessary license.

The state authorities are here conducting a crusade against the owners of unlicensed dogs expect to have a large number of persons in the police court. They are now engaged in the work of gathering up the names of all owners of dogs on which the required license has not been taken out. Their work here probably will be continued for some time to come.

The game wardens today had a man arraigned in the police court for hunting on the river front without a license and a fine of \$15 was imposed.

There will be a prayer meeting at the Anne Lee Memorial this evening at 7:30 o'clock.

FREIGHT RATES TO BE REDUCED IMMEDIATELY

Wall Street Agency Says Announcement Will Be Made Today

ACTION VOLUNTARY

Plan Said To Have Been Drafted by Atterbury, Elliott and Storey—15 to 20 Per Cent Reduction

New York, Oct. 14.—Freight rates throughout the country are to be reduced 15 to 20 per cent, to take effect almost immediately, according to an announcement to be made tomorrow by the Standard Daily Trade Service, an organization supplying news to Wall Street operators. The reduction, to apply to all classes of commodities on all railroads, is intended to stimulate business, on a scale that will solve the unemployment problem and start a boom in building and other industries.

Official action ordering the general rate reduction and authorizing an application to the Interstate Commerce Commission for reduced schedules is expected to be taken in Chicago tomorrow by the Association of Railway Executives. The association's executive committee already has approved the reductions in the ground that more than 40,000 freight cars are idle, due to present high rates.

The decision was reached at a conference here of railroad presidents, merchants and big manufacturers, who contended that lower charges were all that were needed to create a business boom. If the association fails to ratify the recommendation of the executive council it is said many of the roads are prepared to reduce rates on their own initiative.

"The proposed reductions will mean a general all-around cut of from 15 to 20 per cent, in freight rates on all classes and commodities of freight," says the Standard Daily Trade Service's bulletin, which will be sent broadcast tomorrow by its editor, Clifton A. Pennington. "The move is a business move, a move to get more traffic and to reduce the volume of business and a shut down, by high rates, of American farmers and other classes to foreign market in the face of competition from other producing countries are the prime impelling reasons for the proposed reductions."

The reductions have been worked out carefully by the executive committee of the association, consisting of W. W. Atterbury, vice president of the Pennsylvania Railroad, chairman, and President Elliott and Storey, of the Northern Pacific and Santa Fe lines, respectively.

"This is the first time in the history of American railroading that the transportation agencies of the country, acting virtually as a unit, will petition the Government to lower their rates instead of increasing them," the bulletin goes on. "The procedure will be for each individual road to file new tariffs with commission. Each carrier is to file its own new tariffs and ask the commission to approve them as speedily as possible. It is the present intention to ask the commission to allow the new tariffs to go into effect five days from their filing."

NEW GAME WARDEN

B. H. Davis To Be Named For This City

B. H. Davis, of 830 South Lee street, will be appointed game warden for this city by the state authorities. Mr. Davis already has the endorsement for the position of the majority of the members of the city council. As soon as the necessary papers are transmitted to Richmond he will take charge of the work here.

The work embraces all violations of the game law, and also includes locking after illegal hunting and hunting on Sunday which is a violation of the law.

This city for many years past has not had a game warden and only recently the state game department decided to place a man in this city.

Worth Hulfish Buys 313 King Street

Worth Hulfish has purchased from the heirs of the late James F. Carlin the three-story brick store building on the north side of King between Royal and Fairfax streets, known as 313 King street. The building adjoins the place of business of Worth Hulfish and Sons, Inc., and the ground floor of the structure is used by Harry W. Wade, printer. The Hulfish firm for several years past have occupied the two upper floors for their business. For the present there will be no change in the present arrangement.

October Establishes New Standards of Profit Sharing Values

The praise worthy impulse of thinking home makers for months past, has been to confine their buying to bare necessities. The time of disproportionate values is past. The October values, available throughout this store are shining examples of the old, worth while, money-saving standards. To delay your buying further, will mean only disadvantage to you, and hardship for workers in factories and plants the world over.

CITY NEWS IN BRIEF

Mr. and Mrs. Charles Ellet Cabell have issued invitations to the marriage of their daughter, Anne, and Ensign Ferguson Beach Bryan, United States Navy, on Saturday, October 22, at 5 o'clock in St. Paul's Episcopal Church.

Quite a number of delightful pre-nuptial teas and "showers" have been arranged for two popular brides-to-be, Miss Julia Benton Hopkins, whose marriage to Mr. Arthur Harrison Saunders, of Richmond, will take place next Wednesday at her home in North Washington street, and Miss Anne Cabell, who will be married on the 22nd of this month to Ensign Ferguson Bryan in St. Paul's Church. This afternoon Mrs. Charles F. Holden will entertain at a miscellaneous shower for Miss Hopkins, and tomorrow evening, Miss Marie Gasson will be hostess at a shower at her home on Seminary Hill for Miss Cabell.

Miss Mary Belle Gill, of Baltimore, is visiting Mr. and Mrs. George D. Hopkins, in North Washington street.

Mrs. Carl Keirn, of Pennsylvania, Miss Nelle Grimsley, of Florida,

and Miss Blanche Einks, of Virginia, who are motoring through Virginia and Maryland, are visiting Mr. and Mrs. Warren Moody, in Alexandria, for a few days.

Messrs. K. E. Wallace, Marshall Travers, Clarke Slaymaker, J. Sherman Fowler, Eugene Jackson, and Keith Wade left this morning for Lynchburg, where they are delegates to the Older Boys' Conference, which is being held in that city today, tomorrow and Sunday. They will be joined by the delegates from Manassas, Culpeper and Fredericksburg, en route. Mr. Wallace has charge of the delegations from these four cities.

A reception is being given to the faculty of the High School, tonight, by the students.

BRADDOCK STATION

7 room frame house with hot water heat, electric lights, fine front porch, city water, and all other modern conveniences. This property must be inspected to be appreciated. Price \$5750. Small cash payment and balance like rent.

GRAHAM & OGDEN

530 King St. Phone 579

There will be a meeting of the Potomac Lodge, No. 46, I. O. O. F., tonight at its hall in North Columbus street.

There will be a meeting of the Potomac Retail Merchants' Bureau of the Chamber of Commerce at the

Chamber of Commerce rooms Monday night at 8 o'clock.

The Woman's Auxiliary of the Second Presbyterian Church will hold Rally Day services at the Westminster Building tonight at 8 o'clock.

The American Legion will hold its regular monthly meeting at the Chamber of Commerce rooms tonight at 8 o'clock. This meeting was postponed to this date from last Friday night and as much business is to come up, a large attendance is desired.

Miss Annie McBride, who has recently had her tonsils removed at the Alexandria Hospital, has returned to her home in Potomac.

Mr. Samuel Diener, of Baltimore, is spending a few days with his son, Mr. Irvin Diener, in South St. Asaph street.

Alexandria Gazette Corporation
317 King Street, Alexandria, Va.

Entered at the Postoffice at Alexandria, Virginia, as second class matter

TODAY'S THOUGHT Misled by fancy's meteor ray, by passion driven; but yet the light that led astray, was light from heaven.

Sir Walter Scott.

PANAMA TOLLS EXEMPTION

We are glad to note, in the recent vote in the Senate, that the majority of the Democratic Senators voted against the exemption of American coastwise shipping passing through the Panama Canal, from the tolls heretofore exacted. The Bill now goes to the House, and its fate is uncertain, but we hope, for the honor of the country that it will be defeated.

During the Wilson Administration, at the request of the President himself, the measure failed of passage. As we see it, the matter involves the keeping of a treaty compact or its violation. It is exceedingly unfortunate that at this time, when the representatives of Great Britain are to meet the world's great Powers in solemn convention, at our invitation, that they are to witness the repudiation of what they believe, and many Americans, as well, is a binding agreement on the part of the United States. A treaty should be held sacred, and there can be no more dishonoring act among nations than a breach of its provisions. We hope that the House, as stated, will uphold the integrity and good name of Old Glory, and not permit its resplendent folds to be trailed in the dust.

Aspirin

"Bayer" on Genuine Aspirin—say "Bayer"

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache,

Toothache, Lumbago and for Pain. All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12, and in bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid.

CALOMEL USERS**TAKE AWFUL RISK**

Very Next Dose of Treacherous Drug May Start Terrible Salivation

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

The Samaritan Rebekah Lodge, No. 27, will hold its regular meeting tonight on the fourth floor of the Alexandria National Bank Building.

Mrs. H. C. Clarke, with her two children, Anita and Howell, Jr., has returned to her home, 910 King street, after a visit to her parents, in Lynchburg.

There will be a called meeting to night of Randolph Chapter, No. 3, F. R. C. and Lafayette Council, No. 2, K. K. for work in the 18th and 20th degrees.

Little Helen Hughes has returned from the Alexandria Hospital to the home of her sister in North Fairfax street.

Winter Is Just Around The Corner!**SMART SUITS FOR FALL**

Offer Wide Selections in Faultless Styles

Tailleurs that are distinctively authentic in their slender waist line, pinched in waist line or flaring coat line effects are favored modes. Tailored to the last degree of perfection, lined with delightfully rich materials and fitted with the exactness of fashion herself, they are irreproachably correct, developed of luxurious new materials, moussine, Duvet de Laine, Tricotine and Poirer Twill in fall's chosen colors, Malay, Sorrento, marabow and navy. They are priced at

\$25.00
and up

CLEVER AUTUMN FROCKS

Adaptations of the models featuring distinctive vagaries of silhouette displayed by the most eminent designers are the ones we are showing and recommending.

Many reflect foreign influences in various touches of trimming while others are in the plain straight line effects so popular for this season.

They are priced

\$10.00
and up

Furs**Millinery****ENTER THE ERA OF ECONOMY!**

Not the economy which says, "Thou shalt not buy clothes," but the sane economy that makes smart clothes possible to very limited purses. The problem of a very chic appearance is solved with less difficulty this season than for many years, prices are lower and styles more pleasing and practical.

LUXURIOUS NEW WRAPS

The appropriate and necessary companion of a new frock is an equally charming wrap, happy examples of which are in luxurious coats with the new blouse waist, with the graceful fitted waist and with the loosely draped back lines fashioned of soft, warm duvetyn, gerona, parlette or panvelaine in the new fall shades. They are priced

\$15.00
and up

You Haven't Seen Such Values In Years

WITH working conditions back to normal and mills turning out better woolsens than ever the values that you men and young men will get this fall are greater than any we've offered in several years.

Prices are shaded considerably—certainly way under those of a year ago when you were forced to pay \$40.00 to \$75.00 for similar qualities.

And the styles, that's where these clothes sparkle! The designers must have outdone themselves. As for tailoring we do not believe we've ever seen such high grade work.

QUIT TOBACCO

So Easy to Drop Cigarette, Cigar or Chewing Habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

NOTICE—The annual meeting of the stockholders of the Alexandria Water Company will be held at the office of the Company, 111 North St. Asaph Street, on Monday, November 7th, 1921, at 10 o'clock a. m.
236-29c. George Uhler, Secretary.

will do this work which includes the heating of the Rotunda, East Lawn and East Range.

The general plans and specifications are the work of the engineering department under the direction of Charles Hancock, professor of Mechanical Engineering at the University. The work is to be completed by January.

The new plant for this section of the University is the result of a sixty thousand dollar appropriation by the last Legislature for this specific purpose. It is planned to ultimately heat every building on the University campus from a central plant and plans for adding other sections and building groups to the new plant are in progress.

EVERY CAR ON TIME

Every car on time was the record set by the Southern Railway System in handling 5,320 cars of Georgia peaches to the markets of the East and West, during the season just closed—an accomplishment which should be a matter of pride to every person in the organization.

From Atlanta where peaches from South Georgia are concentrated, the Southern handled 4,557 cars to the East; 362 northbound via Chattanooga, Louisville and Cincinnati; 29 to the West via Birmingham; and 8 to Florida via Macon. From North Georgia orchards 364 cars were sent East, making a total eastbound movement

of 4,921 cars, handled in 120 special peach trains from Atlanta and eight from Greenville to Potomac Yards.

Each of these shipments moved to destination or connecting lines on schedule time without delay or accident. This hundred percent performance contributed greatly to the success of the Georgia peach growers this year. It was accomplished through the use of the improved facilities that have been provided by the Southern, including the double-tracked line from Atlanta to Washington, and by the splendid co-operation of all who had anything to do with the movement.

An illustration of the spirit which animated the men of the Southern's operating forces in moving the peach trains was furnished by Engineer A. B. Chandler of the Danville division whose resourcefulness in preventing a delay to his train which would have broken the perfect record is related in another column of the Bulletin.

Shipments of peaches from Georgia this year have broken all past records, the Bureau of Markets and Crop Estimates of the U. S. Department of Agriculture reporting 10,472 cars. A report of the Bureau predicts that before many years 15,000 tons of peaches per year will be marketed from Georgia. The report concludes with a reference to the general satisfaction expressed by the trade with the manner in which the 1921 crop was handled by the railroads.

TOLEDO, SPAIN, THOUGHT OLDEST CITY IN EUROPE.

New York, Sept. 28.—Toledo, Spain, is the oldest city in Europe, says the September Mentor Magazine. It was a city in prehistoric times. It was Toledo, "the uttermost corner of the earth," that sheltered the Jews in their flight from Nebuchadnezzar. Carthaginians, Romans, Goths, and Moors ruled it successively, adding something to its heritage of ages. Today the streets are mildly astir and the city at no times seems fully awake

RED CROSS WORKING FOR HEALTHIER U. S.

Thousands Aided by Instruction in Care of the Sick, Food Selection and First Aid.

How the American Red Cross guides thousands of persons to health is shown in a summary of the society's activities in the health field based upon the annual report for the last fiscal year. Through its Nursing Service, its Home Hygiene and Care of the Sick course, nutrition classes, First Aid classes, Life-Saving classes and Health Centers and in numerous other ways designed to acquaint masses of citizens with proper methods of living, the Red Cross carried its message of health into all parts of the country.

The work of the Red Cross during the war in its traditional field of nursing, furnishing the military and naval establishments of the nation with 18,877 nurses is well known. And there are today 37,387 nurses registered with the American Red Cross and subject to call in emergency. During the fiscal year, 2,006 Red Cross nurses were accepted for assignment to Government service, 388 by the Army and Navy and 1,618 by the United States Public Health Service.

In addition to the nurses enrolled by the Red Cross for Government service, the Red Cross itself employed a total of 1,848 public health nurses in the United States and Europe. By far the greatest number was employed in the United States, 1,267, while 581 were in foreign service.

Home Hygiene and Care of the Sick classes, giving thorough instruction in the proper care of the sick in instances where the illness is not so serious as to require professional nursing care, during the fiscal year numbered 5,179. A statistical picture of the Red Cross operations in this field follows:

New classes formed during year..... 5,179
Classes completed during year..... 6,299
New students enrolled..... 101,068
Students completing course..... 78,482
What the Red Cross accomplished in giving proper instruction through its Nutrition Service is indicated by the following table:

New classes formed during year..... 142
Classes completed during year..... 186
New students enrolled..... 2,341
Students completing course..... 2,013

In addition to the above, a total of 22,006 children were given instruction in the proper selection and preparation of foods.

Through its 260 Health Centers, the Red Cross reached 90,252 persons. In these Health Centers, 4,015 health lectures were given and 780 health exhibits held.

In the United States last year, 75,482 persons were killed and 3,500,000 injured in industrial accidents. To prevent this enormous waste the Red Cross held 5,100 first aid classes with a total of 104,000 students enrolled.

RED CROSS RESCUED 600,000 FROM DEATH

Spent \$1,200,000 for Relief of Famine Sufferers in China Last Year.

To help overcome conditions of acute distress in five famine stricken provinces of Northern China, where millions of persons were affected by an unprecedented shortage of food, the American Red Cross during the last fiscal year spent more than \$1,200,000, \$1,000,000 of which was contributed directly by National Headquarters and the remainder by various groups interested in the welfare of China.

Through the wide relief operations thus made possible it is estimated that more than 600,000 famine sufferers were saved from starvation.

To the end that similar prompt relief measures by the organization may always be possible the Red Cross is asking continued support by the American people by universal renewal of membership at the Annual Red Cross Roll Call, November 11 to 24.

The method of relief employed by the American Red Cross in its operations in China was particularly effective, for in addition to saving hundreds of thousands of lives it provided China with more than 900 miles of permanent roads that are sorely needed to prevent a recurrence of famine. At one time the Red Cross employed 74,000 Chinese workmen, paying them in food for themselves and dependents, this food being brought in from Manchuria and elsewhere.

ONE DOLLAR ANNUAL DUES IN THE AMERICAN RED CROSS MAKES YOU A PARTICIPANT IN RELIEF WORK FOR THE HELPLESS THAT GIRDLES THE GLOBE. ANSWER THE ANNUAL RED CROSS ROLL CALL, NOVEMBER 11-24, 1921.

NEWS OF THE OLD DOMINION

Richmond—Of the six missionaries named this afternoon at the annual meeting of the foreign mission board of the Southern Baptist convention, the first is W. E. Hines, of Tampa, Fla., an architect, who is

being sent to China for constructive work. He is the first architect to be sent out on missionary work by the Southern Baptist Church.

Saltsville.—A body found in the mountains near here today by lumbermen is believed to be that of Eliza L. Harsell, a wealthy young clubman and naturalist of Bedford N. Y., who disappeared last February, according to a detective sergeant, who has been employed to search for the missing naturalist. The condition of the body is said to indicate that it had lain in the mountains for months.

Richmond—What he termed preventive dentistry is saying and prolonging thousands of lives in the country annually, Dr. Thomas H. Hartzell, of Minneapolis, president of the National Dental Association told members of the Virginia State Dental Association in an address at

the opening session of their annual convention here last night. Richmond—A number of benevolent bequests were contained in the will of Mrs. Ellen Palmer, probated here today. Heading the list was a gift of \$30,000 to the confederate memorial literary society.

Richmond—Virginia, in common with virtually every other state, is suffering this year from an unusual number of diphtheria cases. The sickness records for September make this fact only too apparent. Dr. Ennon G. Williams, state health commissioner, sends a message to the two classes of professional people in Virginia who can make the disease far less dangerous if they will exert themselves to that end. "If the Virginia teachers," said Dr. Williams, "will insist upon the observance of our 'health rules,' will put into practice their knowledge that diphtheria can not be conveyed from one child to another unless the child gets into its mouth the secretions

from another the disease can not be spread; and the school room will be the safest place for a child to be.

Richmond—At the annual meeting of the stockholders of the Southern Railway Company today, the annual report of directors covering the operations of the company for 1920 and the settlement recently concluded between the company and the United States railroad administration, winding up all claims and counter claims arising out of the operation of the Southern's property by the government during the period of federal control were formally approved. Gasper G. Bacon, of Boston, Guy Cary, of New York, Fairfax Harrison, of Belvoir, and Henry W. Mil-

ler, of Washington, were re-elected to succeed themselves as members of the board of directors for a term of three years.

Danville—The tank company and the field hospital unit recently organized here were accepted for service by the state and mustered in last night by Captain W. L. Furdon who represented the adjutant general. The papers of each man were gone over and the physical inspection made, only two being disqualified on physical disability. Next Monday night the two organizations will be inspected by the federal authorities and, if approved, mustered into government service.

Norfolk—Separated for almost 40

years, father, daughter and son have been reunited through the efforts of the bureau of missing persons of the Norfolk police department. Several days ago a letter was received from William Grappe, of Baltimore. The writer stated that he was the father of William and Emma Grappe, and that he had not seen or heard of them for more than 39 years. He asked the police to help him locate them. The letter was turned over to Detectives C. E. Springle, and in less than half an hour son and daughter were both found and told of the father's letter. The elder Grappe was notified that his two children had been found, and he arrived here yesterday morning, when a happy reunion took place.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

RICE WILL MEET SHORTAGE CAUSED BY POTATO CROP

Washington, Sept. 14.—The prospective shortage of the potato crop makes possible a good deal of the rice crop as a substitute for potatoes. Rice can be made to meet the shortage, suggests the Bureau of Markets and Crop Estimates, United States Department of Agriculture. The prospective crop of 33,500,000 bushels of rough rice is equal to 981,000,000 pounds of cleaned rice, and to this must be added comparatively large stocks derived from the extraordinarily large crop of 1920. Cuba, also, which usually receives large imports of rice from this and other countries has stocks of this cereal that are greater than the ordinary ones.

WOYED HER DRAPERIES AND A FADED SKIRT

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies, even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

YOU'RE SICK, BILIOUS! TAKE "CASCARETS" FOR LIVER AND BOWELS

Get a 10-cent box now! You're bilious! Your liver and bowels need a thorough cleansing with Cascarets, then the headache, dizziness, bad breath, and stomach misery will end. No griping—easiest physic on earth.

How To Keep Your Blood Pure and Wholesome

It is the Person With Rich, Red, Normal Blood—The Person of Health and Energy—That Meets With Business and Social Success.

A Lowered Vitality Is Usually Due to Waste Products in the Blood.

When your blood is impoverished and loaded with waste products, you don't get the full strength out of your food, and as a consequence, you become weak, nervous, and easily upset. Waste products get into the blood mainly through the intestines, but there are other sources—for instance, the glands. Some glands secrete digestive juices, while others excrete waste products. If they fail to properly function, waste products accumulate.

As a result, nature strives to cast off the poisons. It may be through the skin in the form of some skin disorder, but it is not infrequent for it to settle in the muscles and joints and cause rheumatism.

For over 50 years, thousands and thousands of men and women have relied on S. S. S. to clear their blood

of waste products. S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality. The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for keeping your blood in good condition.

Get S. S. S. at your druggist. Use it strictly according to directions and write Chief Medical Director, Swift Specific Co., D-718 S. S. S. Laboratory, Atlanta, Ga. for special medical advice (without charge). He is helping people every day to regain their health and strength. Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. S. is sold by all drug stores.

Footwear for the Little Folks

The most important purchase to be made for the young folks is SHOES.

The growing foot should be properly clad in order to assure comfort in future years. We devote a large part of our establishment to the fitting of Infants, Childrens, Misses and Boys Footwear, and we will see that your child is fitted properly.

The lasts are absolutely correct in design from the nature shaped lasts of the little ones to the most modified toes of the boys' and growing girls'. Our stock is complete and the following leathers may be had: Black and Tan Calf, Black and Brown Kid, and Patent.

They are priced according to size and you'll find in them more value for the money—than the price usually buys.

KATZ'S

"GOOD SHOES ONLY"
400 KING STREET

them. At the per capita consumption of 7 pounds of rice in the United States in 1905-1914 for all purposes, before the war, the population, this year, would require 760,000,000 pounds, or 171,000,000 pounds less than this year's crop alone, to say nothing of unusual stocks. There are, however, ways of disposing of the surplus besides finding export markets or piling up domestic stocks.

When the potato crop is short, rice is an acceptable substitute food, and one that may naturally be drawn upon partly to counterbalance the potato crop deficiency. The forecast of the potato crop of this year, made for Aug. 1, is only 816,000,000 bushels, while the consumption, at the per capita rate of 3.8 bushels for 1905-1914, for all purposes, would be 412,500,000 bushels, so that the prospective deficiency, apart from such imports as may be made, is 96,500,000 bushels. The imports of potatoes have never equaled 14,000,000 bushels in one year. Rice may naturally help to fill this void of approximately 100,000,000 bushels of potatoes in the food supply.

It has been noticed also, that wheat is to some extent a substitute for potatoes in food economy, when their price is high. The expected wheat surplus of this country has dwindled as the season has advanced. The official estimate of production was reduced by more than 50,000,000 bushels of this future surplus wheat during July, and, at the per capita consumption of 6.21 bushels for 1905-1914 for all purposes, the remaining crop, as forecast for August 1, provides an export of 83,000,000 bushels under average food conditions. Part of this may be taken as a substitute for potatoes, if prices permit. At any rate, the elements of the situation invite a larger rice and wheat consumption than usual during the crop year of 1921-1922, to be determined by relative prices.

SOUTH HAS ADVANTAGE OVER OTHER SECTIONS

Washington, Oct. 14.—"Producers and consumers in the south now enjoy a distinct advantage over other sections of the United States in respect of freight rates and their relative position is better than it has been at any time in the past," says a statement by Vice President Lincoln Gresh of the Southern Railway System.

"This present advantage springs," the statement continues, "from the fact that freight rates outside the south have been advanced to a much greater extent than within the south. When rates in the east were advanced 5 per cent in 1915 and 15 per cent in 1917, no increases were made in the south. On August 26, 1920, rates in the east were increased 40 per cent and in the west and southwest 35 per cent; in the south the increase was only 25 per cent while rates between the south and other territories were increased only 33 1-3 per cent.

"The result of all this has been to give southern manufacturers a great advantage in rates on both raw materials and finished products, an advantage which is shared by southern consumers. As an example: A cotton manufacturer at Greenville, S. C., drawing cotton from Hattiesburg, Miss., and shipping his product to Chicago, paid in 1914 a combined rate of \$1.04 per hundred pounds, while the manufacturer in Lowell, Mass., drawing cotton from Hattiesburg, and shipping to Chicago, paid \$1.30, giving the Carolina manufacturer a rate advantage of 16 cents. Under present rates the Lowell manufacturer

pays for this service \$2.63, while the Carolina manufacturer pays only \$1.88 1/2, giving him a rate advantage of 74 1/2 cents.

Examples showing similar results can be given for other southern mill points. A compilation of rates on raw cotton from Hattiesburg and Jackson, Miss., Fulton, Ala., Cochran and Tifton, Ga., Spartanburg and Orangeburg, S. C., to Augusta and Macon, Ga., Columbia and Greenville, S. C., Charlotte and Gastonia, N. C., together with the rates from these mill points to Chicago, shows that the average increase on the combined inbound haul has been 89 cents per 100 pounds. Taking the same points of origin, the rates on raw cotton to Lowell and Boston and on finished products from these points to Chicago show an average increase of \$1.20 1/4.

"The position of the manufacturer of pig iron in the Birmingham district, as regards competition with furnaces in the north, has been likewise improved. A compilation of the freight costs of assembling material to produce one ton of iron in the

Birmingham district, combined with the average rate per ton on pig from Birmingham to a large number of points north of the Ohio river, has shown that the Birmingham producer now has an advantage of \$2.15 over Gary competitors, while in June, 1918, this advantage was only \$1.95 per ton.

"The advantage which the south enjoys from its relatively favorable situation as to freight rates is, of course, not confined to the two industries which are cited as illustrations but is shared by all lines of industry and by all consumers in the south, since the freight charges paid on the articles and commodities they consume have not been increased to the same extent that freight charges on similar shipments in other territories have been advanced.

Produce Both With Purina Chows

Why do Purina-fed hens lay more eggs right through the moult? It's because they get more protein and it takes lots of it for feathers and eggs. Feathers run as high as 90% protein. Whites of eggs are nearly all protein. Feed a balanced ration—

Enough Protein for Feathers and Eggs

Purina Chows keep the hens from robbing their flesh to get the materials they need. Get a shorter moult and more winter eggs. Ask about the Purina Guarantee—

MEN'S HATS

It can be truthfully said that American men are becoming better dressed and more carefully groomed as a whole. Not effeminately so, as some are perhaps inclined to infer, for it's almost an impossibility to even imagine that of our virile, clear-eyed, out door youths who so valiantly represented our manhood in the trenches. But wholesomely trim and immaculate they are becoming. It is true that most men's fashions originate in England, but they are

interpreted, and vested with an athletic individuality that is distinctly America's own.

Small Hats The Rule

Correct Fall hat fashions display an even smaller tendency than has been heretofore observed. The manufacturers are producing shapes with plenty of roll to the brims.

Lighter colors than usual appear to be most approved. Quantities of grays are being sold in addition to the very popular tans and lighter shades of brown.

Soft fedoras are accorded the greatest favor as this shape is found to be best suited to the majority of men.

Fabric Hats Established

Fabric hats of two toned mixtures and scratch effects, are such altogether comfortable and practical head wear that their position is becoming more and more definitely established.

Nothing need be said about fine felts, as they are staple and indelibly identified with correctness.

Velours and beavers are coming in for more than their usual share of favor. This is due to the fact that these which are the aristocrats of soft hats, have been materially reduced in price and may be purchased at a reasonable cost for the Fall season.

Derbies With Low Crowns

Derbies, too, must be considered, as they are inseparable from the heavy overcoats of the season. Following the general tendency of

smallness, they display low flat crowns and narrow curled brims.

Hat bands are quite wide and are often of contrasting colors, offering a variety of distinctive effects. Although most hats wear their bow on the side, many are used in the back, both being approved.

Caps are full and generously fashioned. There is a jauntiness about them that makes up for what they may sacrifice to dressiness, and there is an appeal to a cap to which most men respond.

They are made of smart woolen fabrics. Some sporty patterns are very popular, including plaids, checks and solid colors.

Fur Caps Lower in Price

Fur caps have been reduced some what in price, but this fact does not appear to have increased their popularity. The ones show are usually of Hudson seal and are somewhat larger and more capacious than in past seasons.

IF STOMACH IS BAD

LET DIAPEPSIN END

GAS, INDIGESTION

"Pape's Diapepsin" has proven itself the sure relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case cost only a few cents at drug store. Millions helped annually.

PRODUCTS OF OTHER LANDS

(For the Gazette)

Brazil raises the most coffee.

Egypt grows the finest cotton.

France manufactures the most wine.

Syria produces the most attar of rose.

Germany makes the best optical lenses.

Smyrna is the largest exporter of figs.

Australia is the largest producer of wool.

England is the greatest textile producer.

Italy and Italy are large exporters of sulphur.

Ontario, Canada, is the greatest nickel producer.

France and Germany produce the most china.
